How to use this journal

START HERE

01 **Record your baseline on day 1**

Talk for 2 minutes on a familiar topic and save the recording untouched. Every checkpoint compares against it.

02 **Never skip the core block**

Five written sentences, one voice note and the error log: about 30 minutes, all output. On a short day, this is the whole session.

03 **Add the extended block when the day allows**

Shadowing, one listening episode or article with 3 to 5 chunks, one Grammar in Use unit, and Anki review.

04 **Speak with people every week**

Practise with Claude daily, send HelloTalk voice messages weekly, and take one italki assessment at the end of each month.

05 **Let the error log choose next week**

Tag every corrected sentence, and transcribe one voice note a week so speaking errors get logged too. At the end of the week, the three most frequent errors decide which Grammar in Use units come next.

Core	Extended	People	Log
Stage 1: 5 sentences, a 1–2 min voice note, error log. From Stage 2: a paragraph and a 2–3 min voice note.	Shadowing, listening or reading with 3–5 chunks, a grammar unit, Anki.	Claude daily, HelloTalk weekly, italki at month end.	Tick the blocks, note chunks, tag one error.

About 70 percent of your time is output and 30 percent input. On a short day the core block is the whole session; it is never skipped.

The interactive version of this journal tracks the same 120 days online and syncs between your phone, tablet and laptop. Use either one, or both.

Self-learning guide

1 Start from a recording, not a guess

On day 1, record a 2-minute talk on a familiar topic and keep it untouched. For most self-learners, listening runs ahead of speaking, so a recording is a more honest measure than a test of what you understand.

TIP Expect the gap between understanding and speaking to stay visible for a long time. Twelve weeks narrow it clearly; they do not close it, and they will not move you a whole CEFR level. Compare recordings, not labels.

2 Make 70 percent of your time output

Because the gap is in producing English, most of each session goes to writing and speaking, and only about 30 percent to listening and reading. Input is there to feed output: you listen and read to collect phrases you will use, not only to understand.

TIP If a source feels easy, keep using it as a phrase mine and raise the difficulty inside it. Comprehension alone will not move you forward.

3 Protect the core block

Five written sentences, one voice note (record, listen back, re-record once) and the error log. About 30 minutes. The core block is never skipped, even on a short day. The extended block is what you add when the day allows.

TIP Once a week, transcribe one voice note or paste it to Claude, and log its errors. Without this, speaking errors never reach the error log.

4 Choose sources at your level, then keep them

The method is the same at any level; only the sources change. Pick ones you understand at about 90 percent, then stay with them for the whole twelve weeks and move to the harder part of each one. The sources in this journal suit roughly B1 and above; at A2, start with easier ones such as graded readers and slower learner podcasts. This journal is built for learners from about A2 to C1: a complete beginner needs a structured course first.

TIP Switching sources feels productive but resets you. Staying with the same ones lets you notice your own progress.

Self-learning guide

5 Speak with people every week

Self-talk teaches you to retrieve words; it does not teach you to understand and reply in the same moment. Practise with Claude daily through role-plays, send HelloTalk voice messages weekly, and use one italki session at the end of each month as an assessment.

TIP On HelloTalk, keep conversations inside the app, share no personal details, and stay with two or three regular partners so the conversations can grow.

6 Write longer as the stages go on

Stage 1: five sentences a day. Stage 2: one paragraph of 8 to 10 sentences with connectors such as however, as a result and in contrast. Stage 3: one opinion piece of 150 to 200 words a week, redrafted after correction.

TIP The redraft is where most of the learning happens. Rewrite the corrected version without looking at the original.

7 Collect chunks, not single words

From each listening or reading session, take 3 to 5 chunks such as 'it turns out that' or 'to some extent'. Use each one in a sentence of your own before it goes into Anki. Cards are whole chunks or sentences you actually met, never isolated words. Cap new cards at about 5 to 10 a day so the review stays near 10 minutes.

TIP A chunk is yours once you have used it in speech or writing without looking. Until then it is only recognised.

8 Let the error log choose your grammar

Every corrected sentence is rewritten and tagged: prepositions, pronouns, syntax, tenses, articles, word choice or other. The extra tags matter from Stage 2, when tense and range errors start to dominate. Review the log at the end of each week. The three most frequent errors decide next week's Grammar in Use units, and each unit is followed straight away by sentences that use it.

TIP Studying a rule without producing it rarely changes how you speak. Short explanation, then immediate use.

Stages and weekly focus

120 DAYS

DAYS 1–28

Stage 1 · Fix recurring errors

Fix your top three recurring errors, confirmed from the baseline transcript (by default prepositions, pronouns and sentence structure), and build the daily output habit. Five sentences and a 1–2 minute voice note every day. One HelloTalk voice message a week.

Rachel's English short clips · 6 Minute English · BBC Learning English articles · Grammar in Use units from your error log · Anki

DAYS 29–56

Stage 2 · Longer output

Longer output and more flexible grammar. One paragraph of 8–10 sentences a day with connectors. 2–3 minute voice notes that tell a story or give an opinion without restarting. Two HelloTalk messages a week.

Rachel's English · All Ears English · The Guardian news · Grammar in Use · Anki

DAYS 57–84

Stage 3 · Range and natural English

From correct to precise and natural: opinions, range and register. One 150–200 word opinion piece a week, redrafted. One 3–5 minute talk a week without notes. italki becomes free-topic conversation.

Rachel's English, faster clips · Luke's English Podcast · Guardian long reads and opinion · Grammar in Use for recurring errors only · Anki

DAYS 85–120

Next cycle

Start the next 12-week cycle with the same sources at a higher difficulty. The focus comes from your Week 12 recording comparison and italki assessment.

Same fixed sources, one step harder

WEEK	FOCUS
1	Prepositions: in, on, at, and movement (or your #1 baseline error). Write sentences about your day and places, then the matching Grammar in Use units
2	Pronouns (or your #2 baseline error). Retell a short conversation, checking who he, she, they and it refer to
3	Sentence structure: word order, questions, negatives (or your #3 baseline error). Turn Arabic-style sentences into natural English word order
4	Integration. Retell one story from your week using all three, then the monthly italki assessment
5	Past simple, present perfect, past perfect for telling stories
6	Conditionals for hypothetical situations
7	Modals and reported speech
8	Integration: a 3-minute story using all of them, then the italki assessment
9	Range: precise verbs and collocations instead of basic words
10	Opinion and hedging: it seems to me that, to some extent
11	Register: formal and informal, spoken and written
12	Review, the recording comparison, and the italki assessment
13–17	Set from your Week 12 assessment: _____

Checkpoints

COMPARE AGAINST DAY 1

CHECKPOINT

Day 1

Record a 2-minute baseline talk on a familiar topic and save it untouched. On day 1 or 2, transcribe it and tag every error to confirm your top three.

CHECKPOINT

Day 28

italki assessment: ask the teacher to name your top three recurring errors.

CHECKPOINT

Day 56

italki assessment, then compare with your day 1 recording.

CHECKPOINT

Day 84

Re-record the 2-minute baseline topic and compare it directly with day 1, then record a 5-minute talk for stamina. Choose the next cycle's focus.

CHECKPOINT

Day 112

Monthly italki assessment for the new cycle. Check whether last cycle's top errors still appear.

CHECKPOINT

Day 120

Record a 2-minute talk on the baseline topic and write down what changed since day 1.

Baseline

BEFORE DAY 1

Optional: mark the level you think you reach in each skill today, then again on day 84 in a different colour. The recording is the real measure.

	A1	A2	B1	B2	C1	C2
Listening	○	○	○	○	○	○
Reading	○	○	○	○	○	○
Speaking	○	○	○	○	○	○
Writing	○	○	○	○	○	○

Baseline topic

Choose a familiar topic and record a 2-minute talk on it. Save it untouched; you will compare against it on days 56, 84 and 120.

What I noticed in my recording

Long pauses, words I searched for, sentences I started again.

My goal for the 12 weeks

Everyday fluency: holding a discussion, sharing opinions, telling a story, following a conversation. Write it in your own words.
